

Membership in the Aurora Community Arboretum

Members can choose to be active participants or passive donors through their purchase of an annual membership. Those that choose to be active participants work, as time is available, to help the Aurora Community Arboretum meet its goals. This working contribution may be in the Arboretum or in an administrative function. Members will be required to complete a Waiver Form with the Town of Aurora in order to work in the Arboretum.

Friends of the Arboretum are not expected to be active participants. That doesn't mean they cannot be active, it's their choice. By contributing \$50 or more each year, they provide some of the funds needed to manage and expand the Arboretum. Our plans will come to fruition sooner, thanks to the support of the Friends of the Arboretum. 'Friends' status is granted to those organizations or individuals who dedicate **Commemorative Trees** or **Specimen Shrubs** and **Bushes**. The 'Friends' status is in effect until the end of the calendar year following the donation.

All memberships are for a calendar year. Individuals who become members in the last 2 months of the year are permitted to renew for the following year at half price.

The Aurora Community Arboretum Inc. (ACA) is a not-for-profit organization dedicated to the creation and maintenance of an arboretum for Aurora. It is managed by its members through a Board of Directors. Members, if they so choose, are active participants in management of the ACA's affairs and the work in the Arboretum.

The Aurora Community Arboretum is the 100+ acres of Town of Aurora parkland between Wellington Street on the south and St John's Road on the north along the valley of the East Holland River. The ACA works with Town of Aurora Parks and Recreation Services under their Adopt-a-Park program. Funding to build the Arboretum comes from the Town of Aurora and the ACA through its fund-raising activities.

In addition, ACA also works with the Lake Simcoe Regional Conservation Authority which has responsibilities around the East Holland River and contributes to the development of the Arboretum.
